

# ACP PROFLUSH OIL SYSTEM CLEANER

ACP PROFLUSH OIL SYSTEM CLEANER is a unique blend of cleaning agents that quickly and efficiently cleans all of the internal parts of the engine.

## What does it do?

- Removes harmful deposits, lacquer, varnishes and sludge from the crankcase
- Clears and quiets hydraulic valve lifters
- Cleans and frees piston rings
- Unblocks oil pathways
- Stabilises compressions
- Protects as it cleans

## What benefits will customers notice?

- Reduced emissions and smoking
- Restored power
- Improved fuel economy
- Reduced engine wear and tear
- Keeps new oil cleaner for longer.

## Works quicker. Lasts longer.

### The Problem

Dirty Oil before treatment

### The Result

Clean Oil after treatment

### Leading competitor's product

You can see that there are still a large number of deposits remaining.

### Using ACP ProFlush

The lack of deposits in the residue show ACP ProFlush is more effective at system cleaning than competitor products.
